                    pthread mutex destroy(&mutex);
                    printf("Exiting...\n");
               default:
                    printf("Invalid choice!\n");
```

OUTPUT

```
1. Producer
2. Consumer
3. Exit
Enter your choice: 1
Producer produces the item 1
Enter your choice: 2
Consumer consumes item 1
Enter your choice: 2
Buffer is empty!!
Enter your choice: 1
Producer produces the item 1
Enter your choice: 1
Producer produces the item 2
Enter your choice: 1
Producer produces the item 3
Enter your choice: 1
Buffer is full!!
Enter your choice: 3
Exiting...
```
